

# ENDURE INTERIOR DOORS & TRIM

## DESCRIPTION

Taubmans Endure Doors and Trim is the perfect high performing water based enamel for interior and sheltered exterior trim surfaces. It has Nanoguard Technology which means it has small and large particles that interlock, creating a strong protective shield so stains, repeated dusting and wiping won't damage the surface. It has a unique non-yellowing formula, and also protects against the growth of mould and mildew. This is why Taubmans Endure Doors and Trim have been formulated to withstand high traffic areas and has been approved into the National Asthma Council Australia's Sensitive Choice Program.

## USES

Ideal for all doors, skirting boards, windows and architraves.
